

Appendix: Age-related Stroke Quotient Scale (English)

Dear students,

There are 32 hypothetical situations below which are indicative of teacher-student interactions in educational settings. Please try to put yourself in each situation and decide how **pleasant** or **unpleasant** each item feels. There is a continuum below each situation ranging from -10 to +10. Negative and positive scores represent unpleasant and pleasant feelings respectively, and zero must be interpreted as a neutral feeling. Your data will remain confidential and will not be subjected to any personal judgement. Therefore, we look forward to your contribution to our study through your sincere responses. Thank you for your help.
